

Daily Learning Task 13

Year 3

Maths:

Do you know your 7 times table? I always think that this is the hardest one to recall but you can prove me wrong! I would like you to write down the multiples of 7 up to 12×7 . What do you notice about the multiples? Can you see a pattern and describe it?

Practise 7 X table with 'Daily 10' on the Topmarks site:

<https://www.topmarks.co.uk/maths-games/daily10>

Choose Level 3, multiplication and select 7 to practise. If you are scoring full marks at 7 seconds, decrease your answer time to 5 or 3 seconds. Work in your **challenge zone**!

Finding it too easy?

Choose 'division' and practise related division facts.

English:

Can you remember what **consonants** and **vowels** are? Read the following extract from 'The boy who grew dragons' by Andy Shepherd. Use 2 different colours to highlight 15 vowels and 15 consonants.

When I woke up next morning, the first thing I did was swing my head over the edge of the bed and look underneath. And there he was. My dragon. Curled up in the shoebox nest I'd fashioned for him, the loo roll expertly shredded in to a cosy bed. His bright eyes were fixed on mine, his shimmering red body glowing like a hot ember.

What are the five vowels? Did you find all 5 in the text?

If there are 26 letters in the alphabet, how many are consonants?

Were there any consonants you could not find in the text? Which ones?

For an extra question...can you find a simile in the text?

Use the following link to remind you what a simile is if you have forgotten:

Our word of the day is:

GATHERING

It is a noun. What does it mean? Can you use it in a sentence? Find a synonym for 'gathering'. Can you identify the root word and the suffix?

Other:

Music

Ongoing tasks:

Please make sure you read your reading book to someone else each day and carry out your own 'ERIC' time. I recommend doing this after lunch or before bed. Can you let me know what you are reading for pleasure at the moment (title and author)? Thank you!
